

High purity hypochlorous acid solutions for the eye, mouth, ear and skin

Revolutionary hypochlorous acid solutions for animal care.

What is hypochlorous acid?

Hypochlorous acid (HOCl) is a naturally occurring substance produced by the white blood cells of mammals as part of the body's immune response. This powerful yet gentle compound has been utilised for its excellent antiseptic and soothing properties, making it an ideal topical hygiene product for animals.

Hypochlorous acid is effective against a wide range of bacteria, viruses and fungi, while being non-irritant when used on the skin, eyes, mouth, and ears. The new Contego range utilises the latest technology to ensure the purest hypochlorous product on the market, producing a solution of 96% pure hypochlorous which is free from sodium hypochlorite (aka bleach).

Benefits of hypochlorous acid for animals

Excellent Antiseptic Properties

Hypochlorous acid is highly effective against a wide range of bacteria, fungi and viruses. This makes it an excellent choice for managing problems caused by these organisms and maintaining the health of the animal.

Soothing Effects

Hypochlorous acid quickly soothes reddened and irritated areas and helps reduce itch.

Safe and Non-Toxic

Hypochlorous acid is non-toxic and non-irritating, giving it a superior safety profile. It can be used on sensitive areas such as the eyes, ears, and mucous membranes without causing harm and is safe if licked or ingested.

Antibiotic and Steroid Free

Helps in the fight against antibiotic resistance and can be used in cases where antibiotics and / or steroids are contraindicated e.g. pregnant bitches, immunosuppressed animals.

Versatile

Hypochlorous acid can be used on various areas of the body and in all species and ages of animal.

Eco-friendly

Hypochlorous acid degrades to salt and water meaning it is environmentally friendly and does not cause long-lasting harm in the environment.

Contego Eye Spray

Contego Eye Spray is ideal for maintaining eye health in dogs, cats, horses, and small mammals. Non-toxic and safe for direct application to eyes and surrounding tissue, it does not sting or irritate. Suitable for daily use.

- Cleansing of the eyes to remove irritants such as pollen, dust, other debris and mucous build-up
- Cleansing of the fur around the eyes
- Help manage eye issues caused by bacteria / fungus
- Help reduce redness around the eye
- Moisturise dry eyes
- Relieve itchy, irritated eyes
- Flushing the eyes during surgery

How to use:

- Apply directly to the eyes and surrounding tissue 2-3 times a day until eye health is restored
- Use ongoing as necessary to maintain eye health

Contego Ear Wash

Contego Ear Wash promotes healthy ears in dogs, cats, and small mammals. It manages ear canal microflora, soothes redness and itching, and eliminates odours without stinging or irritation.

Antibiotic and steroid-free, it contains no alcohol and is suitable for various applications.

- Flushing of the ear during GA procedures
- Cleansing of the ear prior to the application of medicated drops
- Maintenance cleansing to keep the ears clean and promote long-term ear health

How to use:

- Fill the ear canal with the solution 2-3 times a day or before every application of antibiotic drops
- Use ongoing as necessary to maintain ear health

Contego Mouth Wash

Contego Mouth Wash maintains teeth and gum health in dogs, cats, and small mammals. Its antibacterial properties reduce plaque-causing bacteria and bad breath.

Non-toxic and non-irritating, it can be safely applied to teeth and gums. The easy-to-use spray improves owner compliance over traditional brushing and is suitable for daily use.

- Flushing of the mouth before, during and after dental procedures (polish & scales, extractions, etc.)
- To help soothe swollen gums and reduce redness
- To help reduce bacteria that cause plaque build-up
- To freshen bad breath

How to use:

- Apply directly to the teeth and gums 2-3 times a day
- Use ongoing as necessary to maintain oral health
- Can be used before the application of Stomodine F gel

Contego Skin Spray

Contego Skin Spray manages skin microflora, soothes redness and itch, and eliminates odours without irritation, promoting healthy skin in dogs, cats, horses, and small mammals.

Ideal for sensitive skin, it is antibiotic and steroid-free. Not cytotoxic, it is excellent for wound care and promotes skin healing.

Applications include:

- Manage skin and paw microflora
- Clean and flush wounds: bites, cuts, abrasions, burns, degloving injuries, abscesses
- Pre-, peri- and post-operative skin care
- Soothe red and itchy skin
- Reduce irritation from clipping

How to use:

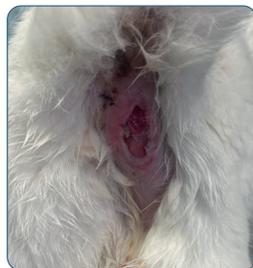

- Spray directly on the affected area
- Apply on wound dressings and place on the affected area
- Use 3+ times daily for best results
